Listed ICD-10 codes are those commonly received by HealthTrackRx for the specified testing; however, it is not a comprehensive list, and an ICD-10-CM book should be used as a complete reference. It is the responsibility of the ordering healthcare provider to determine and provide the most appropriate diagnosis code(s) based on the patient's signs and symptoms as documented in the patient's medical record. HealthTrackRx makes no recommendation regarding the use of any diagnosis code(s)
